Laura Cabello Piqueras

Computer Science researcher

Experience

Apr 2017- Researcher in Information and Communication Technologies

University of Zaragoza (Spain).

My main task is to study dialogue systems based on augmentative and alternative communication. Natural Language Processing applied to text data.

Feb 2015- Aug 2015 Internship in Media Global Links (Japan)

I got involved into Network Management Development Team (R&D department). Worked on troubleshooting.

Sep 2010- Sep 2014 CIBER fellowship: introduction to Scientific Research

I developed a project based on signal processing techniques to characterize electrocardiograms ([link](#) [spanish]).

Education

Sep 2014- Mar 2017 MSc in Telecommunication Engineering

University of Zaragoza (Spain).

Erasmus exchange programme at Tampere University of Technology (Finland). I became part of Audio Research Team, working on audio signal processing combined with machine learning. Master's thesis ([link](#)).

Sep 2010- Sep 2014 BSc in Telecommunication Engineering

University of Zaragoza (Spain).

Languages

Spanish

Mother tongue

English

Advanced level in writing, understanding and speaking.

CAE – C1 (Cambridge)

Japanese

Basic level in writing, understanding and speaking.

Skills

- Linux/Unix
- Python (main)
- C, C#
- Matlab
- Java
- **Databases:** XML, json, MySQL
- **Network management:** TCP/IP, SNMP ([link](#)), P2P
- **Machine learning:** neural networks, NLP, text summarization

Others

- **Software Product Management Specialization** (Coursera - University of Alberta)
- Experience as a teacher academy in physics and telecommunication systems subjects. (2016-2017)
